

M1 - Medicon Krishna Pushkaralu Fun Work Schedule

	Biology	Physics	Chemistry
1	State syllabus 1. Nutrition Read text book	State Syllabus Heat Read the text book, Prepare CCE questions .	1. Read improve your learning, intext questions, Text book concept - Chemical reactions and equations. 2. Prepare and practice NTSE bits from this lesson. 3. Draw diagrams for all activity based questions
2	Write Synopsis on Nutrition, Practice related work sheets	Heat prepare answers for improve your learning Draw diagrams for all activity based questions	Prepare CCE questions and analyse the tables - 1, 2, 3, pH scale, activities - 1,2, 3, 4, 5 for acids bases and salts
3	Practice diagrams - T.S of leaf , Human digestive system, Chloro plast	Reflection at different surfaces Read the text book, Prepare CCE questions .	Prepare CCE questions and analyse the activities - 6, 7, 8, 9, 10, 11, 12, 13, 14 and prepare and practice NTSE bits, answer for think and discuss questions for the lesson acids bases and salts
4	2. Respiration Read text book	Reflection at different surfaces prepare answers for improve your learning Draw diagrams for all activity based questions	Learn improve your learning, Prepare CCE questions and analyse the activities - 1, 2, 3, and prepare and practice NTSE bits understand and prepared Cce questions for tables - 2, 3, 4 structure of the atom.
5	Write Synopsis on Respiration Practice related work sheets	Refraction through plane surfaces Read the text book, Prepare CCE questions .	Prepare CCE questions and analyse the tables - 2,3, 4 and prepare and practice NTSE bits - Periodic classification
6	Practice diagrams - Human respiratory system, Mitochondria, Exchange of gases at alveoli	Refraction through plane surfaces prepare answers for improve your learning	Prepare improve your learning Questions, think and discuss, AS4 from course material - Periodic classification

M1 - Medicon Krishna Pushkaralu Fun Work Schedule

	Biology	Physics	Chemistry
7	3. Transpotation Read text book	Refraction through curved surfaces Read the text book, Prepare CCE questions .	Prepare CCE questions and analyse the tables - 1, 2, 3,4 Prapere improve your learning, intext questions from course material.- Chemical bonding
8	Write Synopsis on Transportation Practice related work sheets	Refraction through curved surfaces prepare answers for improve your learning Draw diagrams for all activity based questions	Prepare and practice NTSE bits from text book and SAT material - Chemical bonding Principles of metallurgy
9	Practice diagrams - Huma heart internal . External structure, Arteries, veins, Capillaries	Human eye colour ful world Read the text book, Prepare CCE questions .	Prepare CCE questions and analyse the tables - 1, 2, 3,4 Prapere improve your learning, intext questions from course material.- Principles of metallurgy
10	4. Excretion Read text book and	Human eye colour ful world prepare answers for improve your learning Draw diagrams for all activity based questions	Prepare and practice NEET bits General Organic Chemistry IUPAC nomenclature, isomerism
11	Write Synopsis on Excretion, dialysis Practice related work sheets	Electric current Read the text book, Prepare CCE questions .	Prepare and practice NTSE bits from text book and SAT material - Chemical bonding Principles of metallurgy
12	Practice diagrams - Human excretory system, L.S. of kidney, Nephron	Electric current prepare answers for improve your learning Draw diagrams for all activity based questions	Prepare and practice improve your learning, AS4 Tables - 1, 2, 3. NTSE bits from text book and SAT material - Carbons and its compounds
